

Date: October 28, 2020

Attn: Gillian Sideri
Gillian's Foods
45 Congress St #106, Salem,
MA 01970-5598

Certification Number P1080:23

To Whom It May Concern:

Let it be known that Gillian's Foods has met the requirements for the Gluten-Free Food Program (GFFP) for Manufacturing. This Manufacturing program was the first in the United States to recognize companies that meet the strictest criteria of “WBRO-free (free of wheat, barley, rye, and oats) in Product, Processing and Packaging.” All certified Gillian Foods Products are listed in the below certified product schedule.

The GFFP is designed exclusively for premiere producers in the country. The GFFP indicates those products which are appropriate for a medically prescribed celiac diet. This company has provided GFFP with a copy of their specific procedures and policies necessary to produce a product free of WBRO. GFFP periodically conducts on-site inspections and has each product independently tested by an approved laboratory using ELISA Method, sensitive to 5ppm (parts per million) and any variation to this will be shown on our certified product list. The GFFP manufacturing standard has the lowest gluten content in the industry. The legal limit is set at 20 ppm.

GFFP commends Gillian's Foods for all the efforts that have been made to provide a product free of WBRO for the nearly three million Americans who are celiac.

The GFMP is the visual assurance at the marketplace to consumers who follow a diet free of WBRO and now Gillian Foods customers can choose them with confidence.

Yours sincerely

Andrew Batten

The Gluten-Free Manufacturing Program

hereby recognizes

Gillian's Foods.

*as a company producing products adhering to
"Free of Wheat, Barley, Rye and Common Oats" Practices
in the Product, Processing, and Packaging.*

Dated this 1st day of October 2020

The appearance of this Mark on packaging certifies that the manufacture adheres to the Gluten-Free Manufacturing Program (GFMP) standards endorsed by the National Celiac Association – The product is free of wheat, barley, rye and common oats, their hybrids and derivatives in product, processing and packaging. Verification testing must confirm less than 5ppm of gluten using the most appropriate analysis for the product.
